Transcript

Lisa: My name is Lisa. I'm in my fourth year as a principal at Lafayette Elementary School in Mayo, Florida. It's made me think, well, if I can make a difference in just one child's life, I'm already doing a world of work.

On-Screen Text: As a part of the Florida Tutoring Advantage, Lisa & Molly work together to improve elementary school students' outcomes in literacy and mathematics.

Molly: Coming in every single day in the classroom and seeing the smiles on every kid's face, like, it's unbelievable how much just one small change in their life can just change the whole tone of the classroom. It becomes a more happy place, just a calmer experience, and it makes them more diligent students.

Lisa: The Florida Tutoring Advantage helps our students because we are able to now have another person or in some of our classrooms, several people in there to help our teachers get our level one and two students up to proficiency. We task teachers with not only teaching grade level standards, but also with helping our students who are not doing as well as they could academically, and we're able to give those students a little bit more one-on-one help through the Florida Tutoring Advantage.
